Computer · Mid-Term Mock Exam (Term 1)

Grade 1 · Inspire Computing Workbook · practice for Monday 19/10

Name: Mira Date: _____ Score: _____ / 14

1. Input or output? Draw a line from each device to INPUT or OUTPUT.

6 marks

mouse ●

screen ●

keyboard ●

microphone ●

speakers ●

printer ●

● 👉💻 **INPUT**

● 💻👉 **OUTPUT**

Workbook p.5 Q5 – INPUT: we tell the computer something. OUTPUT: the computer shows or tells us something.

2. Where do we use it? Draw a line to HOME, SCHOOL or BOTH.

6 marks

computer ●

whiteboard ●

gaming console ●

TV remote ●

washing machine ●

calculator ●

● 🏠 **HOME**

● 🏫 **SCHOOL**

● 🏠🏫 **BOTH**

Workbook p.10 Q1.

3. Draw a computer. Show the screen, the keyboard and the mouse. 2 marks

copy me

Tick what you drew: ☐ screen ☐ keyboard ☐ mouse ☐ speakers ☐ on/off button ☐ wire & plug

Workbook p.15 Q3. Say the parts while you draw: screen on top, keyboard under it, mouse beside the keyboard.

Answer key – for Mum & Dad

From Pearson's Inspire Computing Year 1 workbook answers (Unit 1)

1. **Input or output:** mouse → **INPUT** · keyboard → **INPUT** · screen → **OUTPUT** · speakers → **OUTPUT** · microphone → **INPUT** · printer → **OUTPUT**. *(1 mark each = 6)*
   The four the school test uses are mouse, keyboard, screen, speakers (workbook p.5 Q5).
2. **Home, school or both:** computer → **BOTH** · whiteboard → **SCHOOL** · gaming console → **HOME** · TV remote → **BOTH** (this is the workbook's answer) · washing machine → **HOME** · calculator → **SCHOOL**. *(1 mark each = 6)*
3. **Draw a computer:** 1 mark for a screen with a keyboard, 1 mark for a mouse. Speakers, button and wire are a bonus – praise them! *(2 marks)*

What to watch

- Lines must go to ONE box each – no double lines. In the test she may need to match by drawing lines or by writing a letter/number – check the notebook worksheets for the format her teacher uses.
- Easy trick for Q1: “IN-put = we put something IN (click, type, speak). OUT-put = it comes OUT (picture, sound, paper).”
- For the drawing: big rectangle first (screen) with a small stand, then a long flat rectangle under it with little squares (keyboard), then an egg shape beside it with a line (mouse).
- If she slips, play that island again in **Mira's Computer Lab**.
